

PartSmart™

Control your maintenance costs with PartSmart™

Our program is designed for Flowbird customers that seek to streamline the process of obtaining replacement parts for Flowbird meters, which are no longer cover under the original factory warranty or have an expired extended parts warranty contract.

For a low monthly fee and no long-term contract, the PartSmart™ program will allow you to minimize costs, reduce your turnaround time, and access an ample inventory of parts.

Other key features of our PartSmart™ Program are:

- No per-part fee
- No limit on the number of qualified parts exchanged
- All spare parts in our large inventory are covered in our program
- Free ground shipping for replacement parts
- Requested parts are shipped within 72 hours
- Order your parts online through Flowbird's Parts RequestTool
- Track your ordered parts online

*Batteries and tampered or damaged parts are ineligible for replacement.

About Flowbird

From the moment Flowbird was founded, we have offered innovative and efficient parking solutions. We specialize in creating technology for parking stations and meters, mobile payment systems, transaction handling and centralized software that seamlessly integrates with your parking operations. As a world-leading brand within the parking industry, our products and subsidiaries can be found in more than 40 countries around the world.

Flowbird is certified according to ISO 9001 and ISO 14001. We are also certified according to PCI standards and follow the International Standard on Assurance Engagements (ISAE) No. 3402.
