May 29, 2024,

Dear Madam, or Sir,

XMCO (QSA company) confirms that Flowbird is currently planning the renewal of its PCI DSS annual assessment. In the context of the synchronization of the PCI DSS certifications of the Archipel (ex-Parkeon) and Flowbird Web Office (ex-Cale), the assessment will be conducted on site and remotely by our QSA starting in July 2024, with a targeted certification date around the end of October 2024, for both environments.

I remain available for any further information you may need.

Sincerely,
Jean-Yves Kiger, PCI QSA (206-337)
